Angga Andika Putra

OBJECTIVE

My main goal is to create a safe and comfortable programme for all clients. I strive to facilitate safe and easy programming in developing applications that are understandable, modular, and comprehensible from any level of programming skill of my peers or clients.

EXPERIENCE

FEB 2018 – DEC 2019
Street Ice Cream Vendor | UMKM | Jember, East Java

DEC 2019 – DEC 2020
Intern Programmer | RetGoo Sentris Informa | Malang, East Java

DEC 2020 – PRESENT
Senior Programmer | Jaya Kreasi Putra | Depok, West Java

Key Responsibilities: Plan and execute effective application development in the eyes of members and product managers, evaluate and monitor application development progress, and provide individually tailored support and interventions as needed.

EDUCATION

Bachelor's Diploma, Information Technology

High School, Muhammadiyah 3 Jember

COMMUNICATION

As team leaders, senior programmers are responsible for working closely with colleagues, managers, and product managers to support the creation and development process.

LEADERSHIP

As a team leader, I foster a positive environment that encourages participation, ensures project progress, and promotes social and emotional development.
